Using the GPS coordinates

Navigation apps don't always recognise the villages by name.

Save coordinates in advance and download an offline map. Entry everywhere is free.

Getting There

Without a car: minibus 77 from Batumi bus station (1 Mayakovsky St) to Makhuntseti, ~40 min.

For the rest: car, taxi or excursion from Batumi. Almost all waterfalls are on the Batumi-Keda highway. The further from Batumi, the higher the mountains and the harder the trails.
